

Welcome! There are three levels of trail being offered for this event. They are highlighted on the map below and marked with wooded stakes that have color coded tape along each trail. Please see the descriptions to decide which trail is best for you. There is also hot soup available when you are done hiking. **If you would like to go cross country skiing, we ask that you park by the Yellow Pole Barn and take advantage of the trails on the southeastern section of the property, so as to not interfere with those who are walking.**

1. Basic Loop (pink)

Enjoy a leisurely stroll around the pond and through the trees. This trail covers only level ground, beginning just below the pond and finishing right next to the picnic shelter.

2. Vista View (blue)

This intermediate-level walk will take you up a steep incline to walk along the ridge for a spectacular sightline across the valley. The trail begins above the picnic shelter and ends by the information kiosk near restroom.

3. Adventurous (orange)

If you're looking for a workout, explore our network of wooded trails. Check out the wetlands, or the neat suspension bridge. You will encounter a few ups and downs along the way!
